LOCAL STEAMSHIP SCHEME GAINS IN FORCE REPUBLICAN PROGRAM FOR CONVENTION

Alexander & Baldwin Go To Matson Line

CONTRACT CLOSED MAY MEAN MUCH TO FURTHER TRANSPORTATION

The commission house of Alexander & Baldwin has signed a contract whereby after the first of the year all its freight between island ports and the Coast will be handled by the Matson Navigation Company.

This contract, the confirmation of which was received in the mail of Friday forenoon, is one of the most important and may have more far-reaching results bearing on the transportation facilities of the islands than any that has been made in years.

It means that the sugar of the Alexander & Baldwin plantations that goes to the Pacific Coast will be carried in the steamers of the Matson Navigation Company, and all the return freights from San Francisco and the Puget Sound ports will be carried by the same transportation company.

The announcement of the addition of the steamer Pleiades to the Matson line was a direct result of this contract and enables the Matson people to carry out the "three-cornered" route from Honolulu and Kahului to San Francisco, Puget Sound, and back to Honolulu.

The Matson steamers will call at Kahului every eighteen days and the Matson line will also haul the Makaweli plantation sugars from Kauai.

How far reaching this change in the handling of the "A & B" freights may be, is hard to tell, but there are many who believe that it is one of the first steps toward a locally owned fleet of vessels that will handle the freight of the islands and carry passengers.

The Alexander & Baldwin freights have been carried by the American-Hawaiian line since that prosperous company started, and as there is nothing said of any complaint against the service of this line the supposition is that the transfer to the Matson line is inspired to some extent at least by the agitation for passenger accommodations in connection with the freight business of the islands. Should the Matson company develop into a locally controlled line there is little doubt that the passenger feature will be made a specialty, the results with the Hiloian and Lurline having shown that a slow and comfortable boat is popular. Consequently a larger and more elaborate ship is certain to meet with favor.

This new arrangement has no connection with the contract the American-Hawaiian line has with the Sugar Factors Company for the transportation of the great bulk of the sugars of the islands that go by way of the Tehuantepec route. That contract has two years more to run. The fact, however, of the Matson company taking an aggressive position in bidding for the carrying trade of the islands may develop into some form of competition for the American-Hawaiian when the time arrives for signing the new contract.

The service which the American-Hawaiian has given this year in hauling sugar has been the best Hawaii has ever known. The cargoes have been taken away promptly and landed at destination in the shortest time possible.

This new move of the Matson Company, with which the Castle & Cooke interests are allied, causes some of the wisecracks to predict that the not far distant future will see a company for transportation that will be an alliance of Castle & Cooke, Brewer & Co., Alexander & Baldwin, and the Inter-Island Steam Navigation Company. This will mean a tremendous advantage in the way of freights at the outset and the passenger feature of the trade will not be made secondary.

Republicans Prepare Tentative Platform

A tentative outline of the Republican platform was drawn up this forenoon by a gathering of prominent members of the Republican party, which met at the office of A. G. M. Robertson.

This draft will, after whatever suggestions which may be made by the delegates from the other islands have been included, be submitted to the Committee on Platform and Resolutions, which will be selected at the Territorial convention, which meets at the Orpheum next Monday forenoon.

The tentative platform contains the following principal points:

The usual endorsement of the Federal and local administrations.

A strong compliment to Delegate Kalaniana'ole and his work at Washington.

The party goes on record as being unalterably opposed to government by commission.

The party favors the employment of citizen labor on Federal as well as on Territorial works.

The party expresses itself as opposed to the application of the Federal land laws to this Territory. While it believes in the principle of them, it believes that the wholesale application thereof to the Territory would be unsuitable to the local conditions.

The party favors an increased expenditure for the public schools.

The platform will contain an unusually strong plank on the subject of the treatment of leprosy, advocating the establishment of hospitals for the treatment of the disease, so that no person will be condemned to go to Molokai unless demonstrated to be absolutely beyond cure.

The party will declare itself in favor of an increase in the pay of members of the Legislature.

The platform favors assisting the Promotion Committee.

The encouragement of fruit growing and truck farming is provided for by the appointment of a commission which will investigate the matter and report thereon.

The platform will provide for legislation permitting the depositing of government funds in banks, the purpose being to have the Territory benefit from the interest paid thereon.

An appropriation is recommended for the bringing of another congressional party to Hawaii.

Legislation is provided for to enable the counties to issue bonds.

The usual plank for a pension for the Queen is included.

The convention will meet at 10 o'clock at the Orpheum, and its main business will be the selection of a candidate for Delegate, and for this Delegate Kalaniana'ole will without the

slightest doubt be chosen; and the drawing of a platform.

It is the turn of the Hawaii delegation to select the chairman of the convention this year. The committee will, as usual, be selected by allowing each of the six districts to select a member, the Chair appointing the seventh.

J. P. Cooke stated this afternoon that he was definite in the conclusion not to succeed A. G. M. Robertson as chairman of the Territorial Central Committee. Business reasons prevented him from accepting it. Senator Bennett is spoken of as an excellent man to take the place, if he can be induced to do so. In this connection attention is called to the fact that the chairman does not necessarily have to be a member of the convention.

The date for the Republican County convention has been set for Tuesday, September 22. Jas. F. Morgan has been much spoken of for chairman of this convention, but this plan will fall through, as Morgan will leave in the Alameda next week to go to San Francisco, where he will attend the Trans-Mississippi Commercial Congress.

DANCE AT THE SEASIDE HOTEL

There will be a dance at the Seaside Hotel tonight. Major McKinstry and the officers and cabin passengers of the U. S. transport Buford, if she is in port, the officers and ladies of the local Naval and Army posts, the guests of the several hotels and all patrons of the Seaside Hotel are cordially invited. If the Buford does not arrive the dance will be deferred until she does.

RUMOR OF MEETING STIRS POLITICIANS

Considerable excitement was created in political circles this noon by a widely circulated rumor to the effect that Delegate Kalaniana'ole had called a meeting of political workers for the purpose of getting them to help Lane in his fight for the Mayoralty. This meeting, it was said, was to take place at Waikiki tomorrow.

Lane absolutely denied that this was true, but in spite of this the rumor would not down.

Some of the Prince's friends are trying to persuade him to keep out of the Mayoralty fight, claiming that he will weaken himself with the Hustace and Lucas following if he actively supports Lane.

Commissioner Pratt Discusses U.S. Office

"Did you ever see a really good, live, beehive?" was the Yankee answer that Land Commissioner Pratt had for the question that was put to him with regard to the manner in which land matters are handled in the main office in Washington. Mr. Pratt was down at his office bright and early this morning, sorting out the vast amount of data that he brought with him from the Capital City and with which he thinks that he will be able to bring about some changes for the better in local land

conditions, and he was also getting back again into the routine of his office work.

"The Land Office at Washington resembles nothing so much as a beehive. From nine until four every employe in the big building is on the jump. There are no loafers there, the loafer soon finds that he has gotten into the wrong part of the city, and a man who literally, almost, eats work is found to fill his place.

"The four-story building, with base-

Hospital Trustees Selected

At a meeting held early this week, the association which has charge of funds subscribed for the erection of a children's hospital, chose a board of directors and fixed on a probable site, on Kuakini street.

The directors chosen at this meeting were A. S. Wilcox, S. B. Dole, E. A. Mott-Smith, W. O. Smith, J. F. Morgan, and A. Gartley.

The probable site of the hospital has been fixed on as Kuakini street, though this is not definitely determined, and other locations have been

CORNER FORT AND HOTEL STREETS.

BOMB FOR GOVERNOR

SEAGIRT, N. J., Sept. 12.—An infernal machine was today mailed to Governor Fort of New Jersey, who has been enforcing the Sunday law at the great Atlantic City resort.

MILE IN 57 4-5

CINCINNATI, Ohio, Sept. 12.—Christie made a mile with his automobile in 57 4-5 seconds. This is a world's record for the distance.

Debs At University

BERKELEY, Calif., Sept. 12.—Eugene V. Debs, the Socialist leader, spoke today in the Greek Theater at the University of California.

GUNBOAT VIXEN IN COLLISION

PHILADELPHIA, Pa., Sept. 12.—The gunboat Vixen was today in collision with a tug. One man was killed. The Vixen was beached.

AUSTRIAN STEAMER IS ASHORE

PATRAS, Greece, Sept. 12.—The Austrian steamer Clara is ashore at Cape Papa.

WILL NOT CARRY HOST

LONDON, England, Sept. 12.—Owing to the bitter opposition on the part of the Protestants it has been decided not to carry the Host in the procession Sunday.

ADMIRAL MAKES HIS CALL

ALBANY, Queensland, Sept. 12.—Admiral Sperry called on the Governor today.

Japanese Propose To Form Local Colonies

One of the latest propositions that the Japanese are trying to do is to establish a Japanese colonization company here. It is their purpose to buy lands, build homes, and live in them. They intend to reside here rather than going back to Japan. Their children will be educated here both in the English and Japanese languages.

Fred. K. Makino is the moving spirit of the Japanese colonization company. A certain tract of land in the neighborhood of Makee Island at Waikiki is being Japanese. The Japanese are buying lands and will within a short while build houses to live in.

Up in Kalihi valley, near Supervisor Frank Harvey's place, another tract of land, it is said, has been reserved for colonization purposes.

One of the prominent Japanese has stated that Japanese who make their money in Hawaii prefer to spend it here rather than invest it in Japan.

"The profit here is greater than we could ever get in Japan," said he. "Since the restriction of Japanese immigration, Hawaii Japanese have felt more inclined to remain and make money here. Those who are already here cannot go to the mainland. This is all the more agreeable to the planters and the Japanese merchants.

"The new Japanese bank, when started, will be of great importance and assistance to the local Japanese. With the opening up of these tracts of land for colonization, it is evident that schools, stores, and churches will be built. Japanese money will then begin to circulate freely."

School Shoes

Bring your boys and girls here. We can fit them. Our stock is the largest in Honolulu and embraces every style and shape that's made nowadays.
